## Department of Sociology

Thank you so much for selecting me to be awarded the HSBC Hong Kong Scholarships. What an amazement that I can acquire the prestigious title of HSBC Scholars. As I am studying in HKSYU, I consider that my competitiveness may not be as strong as the other colleges' students. However, it is not true - I succeed in the panel interview and became one of the awardees among 12 tertiary institutions. In view of this, I would like to express great thanks to HSBC for offering me a chance to prove my ability and affirming that I could contribute to the development of Hong Kong in the future. We HKSYU students should not look down ourselves. If we work hard, we will have an opportunity to achieve excellence.

The huge amount of HSBC scholarship will help a lot in providing support to us so as to realize our dreams and ambitions. For me, with the support of the scholarship, the burden of the tuition fee could be greatly reduced. Moreover, I can save some money for the further study on a postgraduate level in the coming future. Apart from the academic aspect, I can spend a part of the money to learn something new in order to equip myself. For instances, I will learn free diving this summer. It is new to me and I may not afford it without the scholarship. Learning new things means a lot to me since I dream to be an instructor of all kinds of water sports. With the help of HSBC, I stepped up my plan. Therefore, I really have to thank HSBC for the award of HSBC Hong Kong Scholarship.
